I understand that I am participating in a program that is sponsored by my employer and administered by my employer's third party administrator ("TPA") or other vendor. In order to administer the program, the TPA or vendor must have access to my private health information, such as my HRA results and biometric screening results. Accordingly, I understand that Integrated Corporate Health will disclose my private health information to the TPA or other vendor for purposes of administering the program. Integrated Corporate Health will require that any TPA or vendor to which it discloses information under this paragraph agrees to keep such information secure and confidential and use such information only for the purposes of administering the program.

PRIVACY POLICY

Welcome to the Integrated Corporate Health Website. This site is owned and maintained by Integrated Corporate Health, LLC (ICH). This Privacy Policy informs you about our practices regarding collection, use, and disclosure of information that you may provide when using this site. Please be sure to read this entire Privacy Policy before using or submitting information to this site. Use of this site constitutes your consent to this Privacy Policy.

YOUR CONSENT

By using this site, you agree with the terms of this Privacy Policy. Whenever you submit information via this site, you consent to the collection, use, and disclosure of that information in accordance with this Privacy Policy.

ABOUT CHILDREN

This site is not intended for children under the age of 18. We will not knowingly collect information from site visitors in this age group. We encourage parents to talk to their children about their use of the Internet and the information they disclose to Websites.

ACTIVE INFORMATION COLLECTION

Like many Websites, this site actively collects information from its visitors both by asking you specific questions and by permitting you to communicate directly with us via email or feedback forms. Some of the information that you submit may be personally identifiable information (that is, information that can be uniquely identified with you, such as your full name, address, email address, phone number, and date of birth).

Some areas of this site may require you to submit information in order for you to benefit from the specified features (such as requesting a form or home test kit).

Personal Information may be needed to tailor pertinent information to you. We use your Personal Information to operate/deliver ICH services, and we may occasionally inform you of new features, services and products that may interest you based upon data obtained through your participation in this online service. We also collect information about requests, your comments and information relating to customer satisfaction and actual or potential misuse of the Website.

Access to the Personal Information on this Website is restricted to ICH associates, authorized partners of ICH, and system administrators. This information will be used solely as a mechanism to provide you with services you request during the normal course of business.

PASSIVE INFORMATION COLLECTION

As you navigate through a Website, certain information can be passively collected (that is, gathered without your actively providing the information) using various technologies and means, such as Internet Protocol addresses, cookies, Internet tags and navigational data collection.

This site may use Internet Protocol (IP) addresses. An IP Address is a number assigned to your computer by your Internet service provider so you can access the Internet and is generally considered to be non-personally identifiable information, because in most cases an IP address is dynamic (changing each time you connect to the Internet), rather than static (unique to a particular user's computer). We use your IP address to diagnose problems with our server, report aggregate information, determine the fastest route for your computer to use in connecting to our site, and administer and improve the site.

A cookie is a bit of information that a Website sends to your Web browser that helps the site remember information about you and your preferences.

Session cookies are temporary bits of information that are erased once you exit your Web browser window or otherwise turn your computer off. Session cookies are used to improve navigation on Websites and to collect aggregate statistical information. This site uses session cookies.

Persistent cookies are more permanent bits of information that are placed on the hard drive of your computer and stay there unless you delete the cookie. Persistent cookies store information on your computer for a number of purposes, such as retrieving certain information you have previously provided (e.g., passwords), helping to determine what areas of the Website visitors find most valuable and customizing the Website based on your preferences. This site uses persistent cookies.

Internet tags (also known as single-pixel GIFs, clear GIFs, invisible GIFs, and 1-by-1 GIFs) are smaller than cookies and tell the Website server information such as the IP address and browser type related to the visitor's computer. This site does not use Internet tags.

Navigational data (log files, server logs, and clickstream data) are used for system management, to improve the content of the site, market research purposes, and to communicate information to visitors. This site uses navigational data.

COLLECTION OF PERSONAL HEALTH INFORMATION

During the enrollment process, ICH collects information from you, such as your name, date of birth, address, phone number and email address. You have the right to not provide this information, but if you do not provide this information, you will be unable to access or use all of the features provided on this Website.

USE AND DISCLOSURE OF INFORMATION

Except as otherwise stated, we may use your information to improve the content of our site, to customize the site to your preferences, to communicate information to you (if you have requested it), for our marketing and research purposes, and for the purposes specified in this Privacy Policy

If you provide personally identifiable information to this site, we may combine such information with other actively and passively collected information unless we specify otherwise at the point of collection. In addition, we may use and/or disclose your personally identifiable information as follows:

- To authorized ICH employees;
- To agents, successors, and assigned contractors who we use to support our business in connection with any programs sponsored by your employer or health plan in which you participate;
- To vendors, contractors and other third parties authorized to provide services and/or programs for your employer's plan sponsor;
- To authorized individuals working for your employer or other third parties to the extent reasonably necessary for us to operate employer-sponsored programs in which you participate, provided the receiving party agrees to maintain the confidentiality of your information and information is used only for the purposes noted;
- In connection with the sale, assignment, or other transfer of the business of this site to which the information you give is related, provided the receiving party agrees to maintain the confidentiality of your information;
- As required by applicable laws, court orders, or government regulations;
- To health care personnel for treatment purposes, including emergency assistance personnel; and
- To third parties such as courts, law enforcement, or others as reasonably necessary to protect our rights or the rights of others.

Prior to disclosure/use, ICH requires recipients of the information to ensure that there are safeguards in place that meet/exceed ICH security standards so that personal information is secure and only used for the purposes noted.

Except as provided above, we will not disclose identifying health information to your employer or plan sponsors. We will make full use of all information acquired through this site that is not in personally identifiable form.

ACCESS AND CORRECTION

To keep your personally identifiable information accurate, current, and complete, please contact us as specified below. We will take reasonable steps to update or correct personally identifiable information in our possession that you have previously submitted via this site.

SECURITY

We take reasonable steps to protect your personally identifiable information as you transmit your information

from your computer to our site and to protect such information from loss, misuse, and unauthorized access, disclosure, alteration, or destruction.

ICH is committed to protecting and securing all personal health information that you submit to us in any form, whether via this Website or any other electronic or non-electronic format, including verbally and in writing. All employees, vendors and contractors who have access to this site and personal health information are trained in our data privacy policies and procedures and fully aware of our organization standards to keep your information secure and confidential. Your information is stored in a secure and isolated database with monitored and restricted access. All ICH associates, vendors and contractors authorized to view and use your private health information are authenticated prior to gaining such access.

ICH continuously monitors and audits web security. Quarterly audits and reviews are conducted to ensure safety, confidentiality and adherence to our security policies.

You should keep in mind that no Internet transmission is ever 100% secure or error-free. In particular, email sent to or from this site may not be secure, and you should therefore take special care in deciding what information you send to us via email. Moreover, where you use passwords, ID numbers, or other special access features on this site, it is your responsibility to safeguard them.
